

Smiths Medical Medfusion 3500 Syringe Pump

The Medfusion® syringe pump safety system has been the leader in infusion pump technology for over 15 years.

Innovations in syringe recognition, drug libraries and PharmGuard® Medication Safety Software with programmable safety limits make it easier to improve safety for you and your patients.

The unique, easy-to-use, and easy-to-learn design of the Medfusion® 3500 Syringe Pump with PharmGuard® Medication Safety Software gives you the ability to customize the platform to your institution's practices. In other words, it adapts to the way you work, not the other way around.

For safety and exceptional value, the Medfusion® 3500 Syringe Pump is the best solution for today's busy healthcare environments.
